About Me:

Located in United Arab Emirates since January 2006. I worked my way up the ranks of the camera department from some of the best technicians in the industry to my current grade as 1st AC / Focus Puller. Experience includes all technical filming: Tracking vehicle, Motion Control, Steadicam, Drones, Live TV, Concerts, Dolly as well as Macro. I enjoy working on both single and or multi-camera shoots as the lead 1st AC. As a self-motivated, confident team leader I function very well under pressure individually or as part of a team. Being a very well organized and meticulous person im also solutions-focused.
