

INTRODUCTION

MOVING AN ARMY WITH TACTICAL PRECISION, TO BREATHE LIFE INTO YOUR CINEMATIC VISION.

Dynamic, detail-driven, and internationally experienced, I'm a **First Assistant Director** dedicated to bringing seamless organization and precision to every production. With extensive expertise in **Movie Magic Scheduling** and a solid foundation in traditional **Strip Board methodology**, I bridge the gap between **creativity and logistics** with ease.

Having successfully managed projects across three continents, I bring global insight and cultural adaptability to both **local and international** productions, **short form and long form**.

My background as a producer enhances my strategic approach to **scheduling, budgeting, and resource efficiency**, ensuring optimal support for producers.

Additionally, **my experience as a director** uniquely positions me to anticipate and fulfill the director's creative vision by **proactively managing logistics**, freeing directors to focus entirely on storytelling and performance.
